

Hurricane Preparedness Tips for Home

Hurricanes can be dangerous, listening to the hurricane warning messages and planning ahead can reduce the chances of injury or major property damage.

BEFORE

- * Know your Emergency Shelters
- * Have disaster supplies on hand
 - Flashlight and extra batteries
 - Portable, battery-operated radio and extra batteries
 - First aid kit
 - Non-perishable (canned food) and water
 - Non-electric can opener
 - Essential medicines
 - Cash and credit cards
 - Sturdy shoes
- * Protect your windows
- * Trim back branches from trees
- * Check into your Home and Auto Insurance
- * Make arrangements for pets and livestock
- * Develop an emergency communication plan

Hurricane Watches and Warnings

A hurricane watch is issued when there is a threat of hurricane conditions within 24-36 hours. A hurricane warning is issued when hurricane conditions (winds of 74 miles per hour or greater or dangerously high water and rough seas) are expected in 24 hours or less.

DURING A HURRICANE WATCH

- * Listen to the radio or television for hurricane progress reports.
- * Check emergency supplies.
- * Fuel car.
- * Bring in outdoor objects such as lawn furniture, toys, and garden tools and anchor objects that cannot be brought inside.
- * Secure buildings by closing and boarding up windows.
- * Remove outside antennas and satellite dishes.
- * Turn refrigerator and freezer to coldest settings. Open only when absolutely necessary and close quickly.
- * Store drinking water in clean jugs, bottles, and cooking utensils.

DURING A HURRICANE WARNING

- * If you need to evacuate your home, lock up home and go to the nearest shelter.
- * Take blankets and sleeping bags to shelter.
- * Listen constantly to a radio or television for official instructions.
- * Store valuables and personal papers in a waterproof container on the highest level of your home.
- * Stay inside, away from windows, skylights, and glass doors.
- * Keep a supply of flashlights and extra batteries handy. Avoid open flames, such as candles and kerosene lamps, as a source of light.
- * If power is lost, turn off major appliances to reduce power "surge" when electricity is restored.
