## **ADVISORY NO. 6**

### **ALL CLEAR ISSUED FOR BELIZE**

**As at 12:00 PM, THURSDAY, 3<sup>RD</sup> NOVEMBER 2022**

The National Emergency Management Organization (NEMO) advises that the "ALL CLEAR" has been issued for the entire country as is signaled by one green flag. This means that the hurricane is no longer a threat to Belize.

Residents in affected areas are strongly advised to remain in their homes as there is significant damage, including dangerous debris, leaning lampposts and downed electrical lines which pose hazard to life. Furthermore, in the interest of restoring utilities quickly and efficiently, it is important that utility crews are able to work unimpeded by unnecessary traffic.

The public is advised to continue to follow the official advisories and updates from NEMO. NEMO's emergency hotline remains operational at 936.
